EXPERIENCE

WEBREATE Frontend Web Developer | Certificate Link

Jul 2023 - Oct 2023 | Uttarakhand, India

- prepared a website where public or user interaction is possible very efficiently using React.Js and related all components. My one own project is inspired from this work. Prepared a clone website of 12+ div and section elements for the company. Html css js animation etc are used in various way in this website.

PROJECTS

MOVIE MAFIA Github Link | Website Link

Excited to share my latest: a React.js powered movie website, integrating diverse APIs for a dynamic experience. React Routes guide users through a cinematic journey, while hooks like useState, useEffect enhance interactivity. With captivating carousels, it's a seamless blend of tech and art, offering immersive enlightenment.

E DIARY Github Link | Website Link

Developed a distinctive Todo MERN web application leveraging Express.js, React.js, and MongoDB, featuring secure user authentication and authorization. This CRUD application stands out in its user-centric design, providing a specialized and secure task management solution.

PUBLIC REGISTRATION PORTAL Github Link | Website Link

React.Js-based Public Registration Portal facilitating storage of public entries, prioritized details, and real-time application status checking; currently desktop responsive with ongoing work on overall responsiveness.

GUESS THE CASE Github Link | Website Link

Playing quiz is interesting but what if quiz questions and answers both have a visual representation by which players get taught and play the game enjoyfully. This website gives all this features manipulating javascript
