EXPERIENCE

WEBREATE Frontend Web Developer | Certificate Link

Jul 2023 - Oct 2023 | Uttarakhand, India

- prepared a website where public or user interaction is possible very efficiently using React.Js and related all components. My one own project is inspired from this work. Prepared a clone website of 12+ div and section elements for the company. HTML CSS JS animation etc are used in various way in this website.

PROJECTS

PUBLIC REGISTRATION PORTAL Github Link| Website Link

Public Registration Portal is a React.Js based website where several public entries and details are stored according to application priorities. There's also a section from where user easily check Application Status. Desktop responsive is set but overall responsiveness is yet to be completed.

MY MAIN PORTFOLIO Github Link| Website Link

My personal website having multiple pages in one website where I mention all of career, education, projects, goals, achievements etc works by using Frontend Elements.

GUESS THE CASE Github Link| Website Link

It's mainly created on Javascript logic. You would have really fun as this website will provide you creative styles of questions in different kind of environment.

POSTOFFICE PORTAL DESIGN Github Link| Website Link

This is almost like post office page of central government where I use flexbox and grid elements in a very fascinating way although responsiveness is yet to be given in this page.

MY BEGINNER PORTFOLIO Github Link| Website Link

My very beginning projects which is mainly based on HTML and form, label, radio button sections having placeholders are targeted to have proper knowledge
